Eigth exercise class

Class 1 & 5

Introduction to numerical programming and analysis

UNIVERSITY OF
COPENHAGEN

Jonathan Wenzel Pedersen

Spring 2024

Overview

1. Plan for today

2. Data Project

Plan for today

What are we doing today?

Today we will be working with Data Project, which is due on Sunday.
I will also go through a few generel feedback on the Inaugural Project.

Data Project

Data Project

For the project you should use:

- Import data from an online source
- Apply data cleaning and data structuring methods
- Present the data visually
- Apply data analysis methods.
